**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

patentdocket@oblon.com  
oblonpat@oblon.com  
jgardner@oblon.com

Continuation of Substance of Interview including description of the general nature of what was discussed: examiner informed the attorney that 112, first paragraph rejection is withdrawn and the application is in condition for allowance subjecting to deletion of "fatty rheological agents and mixtures there of " and reciting specific semi crystalline polymer species (6) described at page 21 and submitting common ownership statements over PGPUB '279 , and patents '518, '504, '276 and '870 since all these documents describe the same species described at page 21 of the specification . If applicants do not adopt the suggestions then the above patents raise issue under 103 and also under obviousness type double patenting rejection since the patents teach and claim " semi crystalline polymers" and PGPUB only teach since the application is abandoned and thus no issue of obviousness type double patenting rejection. Examiner also informed the attorney that patent '063 teaches semi crystalline polymer under "mascara" and this document date is not a 102 (e) date but 102 (b) date.
